Project CONNECT:
Where Opportunity Meets Reality

Chevron and Taft College have partnered to bring an exciting project to the Taft community. Project CONNECT has three components:

- Oil & Gas/Energy Pre-employment Training. Designed for individuals who are unemployed or underemployed, this series of workshops will provide instruction on properly completing employment applications, creating effective resumes, and preparing for job interviews. Participants will also have the opportunity to network with industry representatives in order to build connections leading to employment at the final workshop (which includes lunch). Participants will also be eligible to receive scholarships to assist them in seeking employment. Workshops are from 8:30 am – 11:30 am on May 31, June 7, June 14, and June 21 at Taft College.

- Oil & Gas/Energy Professional Development Training. Designed for small business owners and front-line supervisors, these lunch seminars will provide participants with information on human resources issues such as legal and illegal interviewing practices. Lunch seminars are 12:00 pm – 1:00 pm on May 31, June 7, June 14, and June 21 (location TBD). The June 21 lunch is preceded by a networking event with individuals seeking employment.

- High School Summer Career Exploration. Designed for high school juniors and seniors, this two-week summer program is a combination of workshops and hands-on experience that allows participants to earn 1 unit of college credit while learning about the various career paths within the oil & gas and energy industries. The program is from 8:00 am – 12:00 pm, Monday – Thursday, June 10 – June 20.
